SENIOR INTERAGENCY GROUP (INTELLIGENCE)

WASHINGTON, D.C. 20505

DCI/ICS 0857-87

20 June 1987

MEMORANDUM FOR: Chairman, Interagency Group/Countermeasures (Technical)

SUBJECT: IG/CM(T) Responses to Presidentially- and Congressionally-Directed Countermeasures Tasks

1. A review of the subject material indicates that a gratifying level of response has been achieved or is under way in relation to the nearly two dozen technical countermeasures tasks levied on the IG/CM(T). I concur in your recommendation regarding the STU-III program and agree that it warrants the attention given.

2. May I remind you that the next set of responses to the President and Congress are due to the Chairman, SIG-I, via the Intelligence Community Staff by 15 October 1987. It is essential that our next report reflects continued progress and a continued high level of attention to those actions already under way. Of particular concern for the IG/CM(T) will be to incorporate, as appropriate, any progress or lessons learned from what we have experienced with the New Embassy Building, Moscow. Similarly, the final outcome of the HR 145 legislative effort may well impact on the functions of NTISSC.

3. Now that we have portrayed a working technical countermeasures background in these initial responses, I hope we are poised to surge ahead and reflect completion of some tasks and additional progress with others in the next update to the President.

4. Please be prepared to respond to Congressional queries concerning your first report. The SSCI staff has already expressed a desire for hearings on our progress.

William H. Webster
William H. Webster
Chairman
